The upper 30% of each *MRUpdate*® issue is devoted to your custom imprint, and with ample room for your logo, contact info and photo, your message will clearly showcase your organization's services.

Take a look at these examples. Most of them were generated from elements already on our clients' websites, then adjusted according to their instructions.

Our experienced production staff will prepare your artwork, then fax or email you a proof. You can make as many changes as you like until you're satisfied. Call us today to get started putting your message in front of your community's referring physicians. (760) 731-7491.
