

Custom Binders

Yet another reason to visit.

When you deliver your attractive customized binders to referring physicians, you're creating even more reasons to visit. For example, you need to add the latest issue of *MRUpdate*, organize existing contents, replenish order forms and update CPT code revisions.

Bookshelf Marketing

Your logo and contact info are printed on the spine as well as the cover, so your brand is on display all the time. Bring your custom binder with the first issue of a complimentary *MRUpdate* subscription, and ask your referring physicians or their staff to place it in a convenient location for quick look-up.

Durable Advertising

Whether your custom binder is in a consulting room, or in the front office, go-to referencing for MR Indications provides unmatched durability when it comes to your center's visibility.
